CSS

FONT-AWESOME

ICONS FOR ACCESSIBILITY

Decorative Icons are only being used for visual or branding reinforcement. If they were removed from the page, users would still understand and be able to use your page.

If your icons are purely decorative, you'll need to manually add an aria-hidden attribute to each of your icons so they're accessible.

```
<i class="fas fa-camera-retro" aria-hidden="true"></i>
```

ICONS FOR ACCESSIBILITY

Semantic Icons are ones that you're using to convey meaning, rather than just pure decoration. This includes icons without text next to them used as interactive controls — buttons, form elements, toggles, etc.

If your icons have semantic meaning, you'll need to manually add a few things so that your icon is appropriately accessible:

```
<i aria-hidden="true" class="fas fa-car" title="Time to destination by car"></i>
<span class="sr-only">Time to destination by car:</span>
<span>4 minutes</span>
```

FONT-AWESOME

PLEASE, REGISTER HERE:

https://fontawesome.com/start

After the registration you have to confirm your email address and then you will get a kit code similar to this:

<script src="https://kit.fontawesome.com/9714473654.js" crossorigin="anonymous"></script>

HOW TO SET YOUR KIT'S CODE IN YOUR HTML:

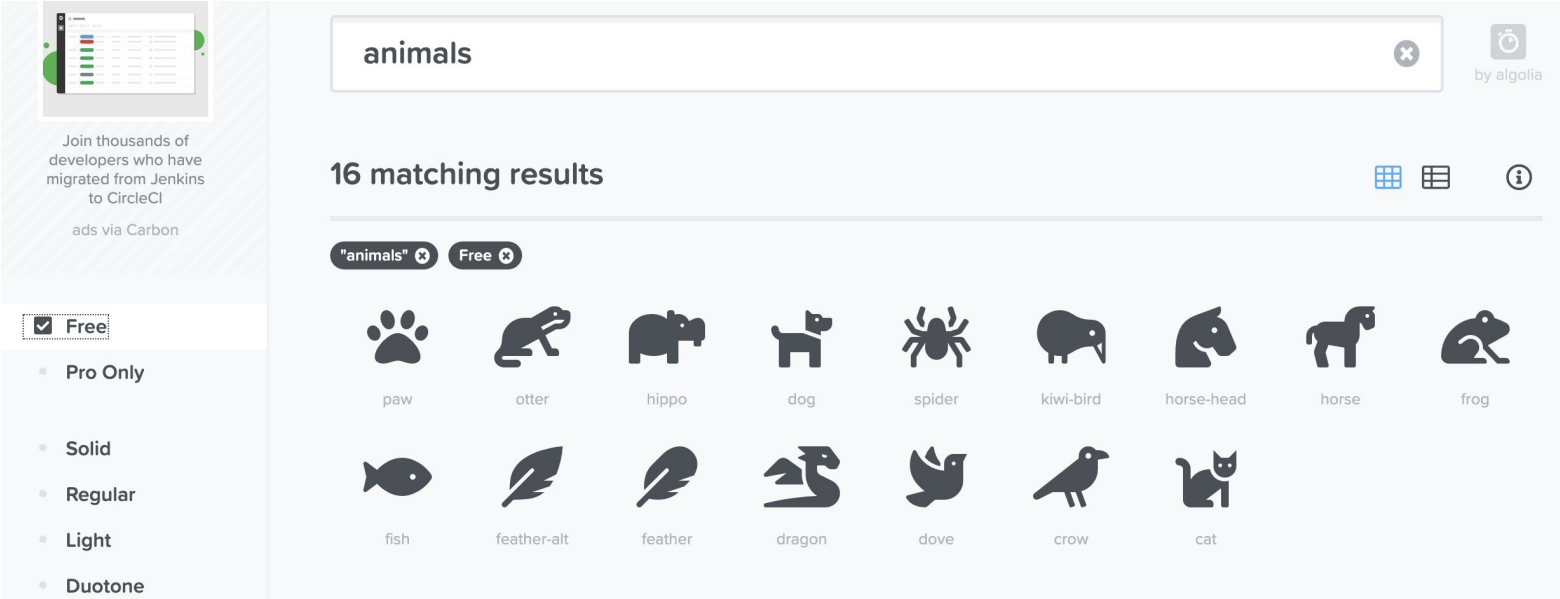
```
<!doctype html>
<html>
  <head>
    <!-- Place your kit's code here -->
    <script src="https://kit.fontawesome.com/9714473654.js" crossorigin="anonymous"></script>
  </head>
```

WE HAVE THE BASIC ACCOUNT

When choosing your icons: Make sure you select free on the left side of the web otherwise you will get a lot of icons but most of them are for the pro account.

START USING ICONS IN YOUR HTML

https://fontawesome.com/icons?d=gallery



APPLY YOUR ICON TO YOUR HTML BODY

Copy this HTML to use this icon:

```
<i class="fas fa-cat"></i>
```
